Recreation Report

To our valued Trail Partners

In 1994 Sentier New Brunswick Trails Council Inc. was incorporated to be the single most important advocacy group for the development of walking and cycling trails on the hundreds of kilometers of abandoned rail beds throughout New Brunswick.

Although those early years were very difficult and many battles were waged against trail opponents and the motorized vehicle industry great things were accomplished by our volunteers, staff and local trail partners.

Eventually as the 1200 kilometer greenway trails were established on the former rail beds the government contracted Sentier New Brunswick Trails Council Inc. to perform annual maintenance and construction duties on its trail system. At its peak we had a five hundred thousand dollar (\$500,000.00) contract and the trails were in pristine condition.

Unfortunately the Department of Natural Resources, the department responsible for Crown lands began a deliberate course of action to reduce the contract and to disburse large sections of the trail to the motorized community reducing the original concept from 1200 km to 400 km of non motorized trail.

In 2017 we were advised that we would no longer be able to bid on the contracts for maintenance and at our annual meeting in October, 2018 we were served with a "white paper" advising us that if we continued with our construction and trail maintenance private contracts what limited funding we were expecting to receive from government would not be available.

As a result we agreed to dispose of all of our small tools, equipment and vehicles and discontinue trail maintenance and construction. Of course this expertise was our only source of income and the loss of which has resulted in our recent decision.

We were expecting some limited funding for the budget year March 31, 2019 and continued to operate until a meeting with government representatives on September 21, 2019 when we were advised that Sentier New Brunswick Trails Council Inc were no longer useful to the government and no funding would be

NEWSLETTERS

- A total of 23,000 emails were delivered in the past 12 months through 16 mailings, including monthly newsletters.
- 30.5% opened the newsletters on average, an increase over 2018. This is above the industry average for NGOs of 17.3% opens. A link to the newsletter is always posted on Facebook, so NBEA members and the general public who access the newsletter via that route cannot be counted.
- Email addresses from the NBEA membership databases are updated each month.
