

February 1, 2019

To: All PLP Facility Users

In preparation for the 2019 season, the Princess Louise Show Center Board would like to extend an invitation to all facility users to discuss the following topics:

- Facility Bio-Security updates
- Continued education to help stop the spread of infection

As part of the discussion we have invited Dr. Nicole Wanamaker , Chief Veterinary Officer for NB, to lead the discussion regarding the above topics so that we can provide a safe environment for everyone that attend events at the facility. Our hopes are to continue to reduce the possibility of the spread of infections.

This meeting will take place on February 23<sup>rd</sup> in the meeting room located at the All Seasons Restaurant in Sussex, NB from 1pm to 3pm.

At the end of the presentations there will be an open discussion until 3pm. If interested parties are not able to attend, please provide an alternate to attend so we can continue to work together to keep everyone involved safe and healthy.

Thank You  
PLP Board
